GORI WINERY

THE PASSION FOR A LAND.
THE LOVE FOR A WINE.

Into Friulian Prealps, on a hill in Nimis, a dream was born which has combined tradition and innovation since 2009. An ambitious adventure that today gives us glasses full of emotions and extraordinary scents from barrels.

Piero Gori, founder of the company, began realizing his dream in 2009. Love and passion of one's native land inspired the desire to combine **innovation** with **tradition**.

In the adjacent 6th century Church of Saints Gervasio and Protasio, whose frescoes were created by Piero's great-uncle (Tita Gori to whom an epigraph is dedicated), there is also the image of the saint next to a barrique.

The obsessive attention to quality, respect and **valorization of the surrounding environment** have given life to a **modern and at the same time traditional winery**, ready to welcome you!
